Please Make Reservation Soon . Limited Seating . 609-265-1800 / x 3

### NEWS FROM THE PRO SHOP..... Golf Pro Greg Farrow

Wintery snow and cold have certainly put a damper on winter golf and weekend tournament play. One weekend in January offered playable conditions, a joyous event for several members. If you can't play you can still lower your handicap during "off season" by working on your short game. Here are some tips to improve your chipping and putting. Check these stats: 65% of your shots are from 100 yards and in / 80% of your handicap is based on how quickly you can get the ball in the hole from 80 yards away / Putting makes up 43% of your shots. Think this when chipping: *effortless, positive, beautiful, crisp, rhythm, touch. Ball Position (back of stance) / Everything turns together / Pull down (accelerate thru impact) Short backswing, long follow through.* Think THIS when Putting - *Solid, rhythm, fell, smooth, acceleration, simple (stroke)* . Aim AT the hole (only 1 in 10 golfers aims putter within 2 inches of the cup. That's a serious handicap since the hole is only 4.25 inches wide). Practice!

Spring IS just around the corner. In photo, Lenny Rankin is practicing his putting in the Pro Shop. Lenny was the most improved player from the green tees in 2017. Stop in THE Pro Shop and let us have a look at your "indoor" putting .

**Note from Restaurant and Beverage Manager Tom DeAngelis .....** Did you know that red wine is the most heart-healthy alcohol? An antioxidant called flavonoids is found in the seeds and skins of red grapes. Research has shown that these flavonoids lower your risk of coronary heart disease, by helping your heart reduce your LDL (bad) cholesterol, and increase your HDL (good) cholesterol levels. Consequently the likelihood of blood clotting is also reduced. Researchers have concluded that full-bodied dry red wines contain the highest levels of flavonoids and provide the greatest benefits. Cabernet Sauvignon is one of the most recommended varietal. We list over a dozen Cabernets by the bottle with at least half of them available by the glass in just about every price range. A few of the club favorites are: Honig - Napa Valley \$15/glass, Oberon - Napa County \$10.50/glass, Chateau St. Jean - Sonoma County \$9.50, William Hill - Central Coast \$8 and 14 Hands - Columbia Valley \$7.50/glass. With February being the month for lovers, everywhere you look, and at every turn you see red hearts. So get in the mood and join us for Dinner Wednesday, February 14<sup>th</sup> with your favorite Valentine. Enjoy a glass of Cabernet Sauvignon or your favorite red wine, and drink to your own heart and your health. And remember to always drink moderately. *Cheers!*

**NEWS FROM THE GREEN ..... GOLF SUPERINTENDENT BRANDON PERRINE**

February brings us one month closer to golf season and one month further away from the bitter cold! January was an exciting time for the maintenance department. We welcomed our new Assistant Superintendent Chuck Szczurek to the team. Previously Chuck was the Assistant at Metedeconk National Golf Club and before that he was a foreman at the Union League Golf Club at Torresdale. He brings years of great knowledge and experience; we are excited to add him to the team. We cleaned up around the ponds on #14, taking out all the saplings and cutting down the phragmites. We limbed up most of the pine trees that were problematic around the course, creating better air circulation for the turf and better playing conditions for the players. Also took out around 500 saplings that were blocking the view of 7 fairway from the tee box and cleaned up the pond by 7 tees. We reestablished the green view on #3 from the fairway by taking out some trees on the right side of the fairway as well. Finally, we took out 15 mature trees on the right side of #13 so we could use the right side of the tee box and right side of the green without interference from overhanging branches.
